WG2 Resolutions from 12th UN-GGIM-AP Plenary Meeting (Bali, Indonesia @November 2023) (1 of 2)

- **Recognizing** the importance of the strategic work plan 2023-2035 of the Expert Group on Land Administration and Management (EG-LAM);

- **Implementing** the Framework for Effective Land Administration (FELA) at the national level and in collaboration with regional committees, functional groups and international organizations;

- **Encourage** member States to engage in the Framework for Effective Land Administration, especially by translating it in their own languages and practically implementing it, leverage the UN-IGIF Implementation Guide, and work with the UN-GGIM Expert Group on Land Administration and Management;
• Aligning effective land administration and the integration of the terrestrial, built, maritime and cadastral domains with the United Nations Integrated Geospatial Framework (UN-IGIF) to support climate change and building disaster resilience, planning, etc.;

• Re-affirming of key principles in fit-for-purpose, interoperability, sustainability, flexibility and inclusiveness in effective and efficient land administration processes and systems;

• Emphasizing the need to strengthen the human capacity and capability in areas related to land administration and management including data collection, systems, institutional or legal framework, and other pertinent sectors;

• Recognizing leveraging synergies, avoid duplication through collaboration with other working groups of UN-GGIM-AP; and international organisations, such as FIG

• Encouraging member states to send their delegates to share information and exchange knowledge

• Acknowledging the memberships of Australia and China in WG 2
• WG-MGI acknowledged the leadership of the Expert Group on the integration of terrestrial, maritime, built and cadastral domains and will together leverage focus group modality to involve other functional groups (e.g. Policy and Legal Framework, GGCE, Singapore-IHO Lab)

• Initial focus will be on the land-sea interface and the technical complexities related to vertical reference (height datum)

• To convene a combined side event at the Fourteenth Annual Session on the integration of terrestrial, maritime, built and cadastral domains jointly with other functional groups
2 – day International Seminar
  • Session #4: Integration of Terrestrial, Maritime, Built and Cadastral Domains
    • 3 Presentations
      • 1 – Integration paper
      • 2 - Sharing on integration from Sweden
      • 3 – FMSDI 2023
