## ABOUT US

Welcome to Fiji's Sustainable Development Goals (SDGs) data hub. The hub helps monitor progress on the Sustainable Development Goals, promotes exploration, analysis, and collaboration using authoritative SDG data sources for evidence-based decision-making and advocacy. Our goal is to enable data providers, managers and users to discover, understand, and communicate patterns and interrelationships, and enable decision makers to identify needs and establish collaborations to advance toward the equitable achievement of the SDGs in Fiji.

## FIJI'S DATA TO ADVANCE THE SDGS

# Final Consultation on CAP

## Fijian Geospatial Country Level Action Plan

Strategic Pathway No 2:

### Legal & Policy

#### Vision

Improved decision-making through the effective use of geospatial information

#### Mission

Provide the leadership, support and cooperation to create and sustain the value of geospatial information for present and future generations.

United Nations

#### 11<sup>TH</sup> TRANCHE DEVELOPMENT ACCOUNT PROJECT

STRENGTHENING GEOSPATIAL INFORMATION MANAGEMENT IN DEVELOPING COUNTRIES  
TOWARDS IMPLEMENTING THE 2030 AGENDA FOR SUSTAINABLE DEVELOPMENT  
(PROJECT 1819D)

# Progress

- Stakeholder Workshop ✓
- Current Situation ✓
