The boat steps into the hinterland of Kuta, so that Kuta is a port trade. Mads Longe is a merchant from Denmark in 19 century had built its trade station in the river periphery. During living in Bali, he often becomes the medium between king of Bali and Dutch. City Tour (Ubud)

Ubud, a town in central **Bali**, is far removed from the drunken bikini scene in **Kuta**, and is regarded as the cultural centre of Bali. It is famous as an arts and crafts hub, and much of the town and nearby villages seems to consist of artists' workshops and galleries. There are some remarkable architectural and other sights to be found, and a general feeling of well being to be enjoyed, all thanks to the spirit, surroundings, and climate of the place.
